Proposal Development Services

Orals/Video

Our highly skilled, full service video production team will create a unique broadcast-quality business video. We provide our clients with one-on-one oral presentation coaching to ensure confident and articulate performances for both on-camera and in-person oral marketing presentations.

Quality Productions

The Federal Government now has specific requirements that the project presenters be the individuals who are working on the contract, not polished professional speakers. SGMIT works closely with your company's personnel to craft oral presentations that are consistent and complementary to the written proposal.

Compelling Sales

How evaluators perceive your project presenter is critical to a successful oral presentation. SGMIT works with presenters to ensure success if visual aids are not an option. We plan and produce your oral presentation and practice techniques to improve our client's communication skills and delivery. SGMIT works with your team of technical experts to ensure compliance and make your oral presentation clear, concise and compelling.

Full Service Production

With our help, your explainer video becomes a key asset to your project proposal. SGMIT's orals coach blends your personnel's expertise with techniques of effective presentation and public speaking to focus your proposal on the Government agency's needs per the written RFP. This will get the evaluator's attention and reinforce your capabilities to fulfill project goals and best qualified status. We produce your corporate explainer video from start to finish – from concept, planning, pre-production, script writing, filming and post-production.

Efficiency

We are aware of the strict time constraints you may face as a business. As we tailor make your production to your liking, we offer quick turnaround times for requested edits. We are also committed to produce a polished product by the final deadline.

SG Multimedia & IT Services LLC (SGMIT) creates high-quality explainer videos to present complex ideas, products and processes to Government evaluators in response to their Request for Proposal (RFP) for Federal Government agency contracts.

Orals Coach / Video Producer Profile

- A producer, writer, and broadcast journalist, for more than twenty years and is a lifetime member of the Writers Guild of America.
- Honored with multiple national awards including two Emmy Awards, a Writers Guild of America Award, and two George Foster Peabody Awards for excellence in journalism.
- Prepared a wide and diverse array of clients for high profile interviews: from Federal Government officials such as U. S. Fed Chairman Ben Bernanke and Secretary Hank Paulson; to prominent doctors, scientists, business professionals, engineers, and technicians.
- Directed budget conscious, multi-platform video shoots on location in every imaginable circumstance: from the Oval Office; to behind the scenes at the U.S. Treasury; Lawrence Livermore Laboratory; maximum security prisons and military bases; manufacturing plants at Boeing and Siemens; lifesaving heart surgeries in hospitals in the U. S. and abroad; to the desert sands of the Middle East and the African savannah.
